

# EXERCISE 50

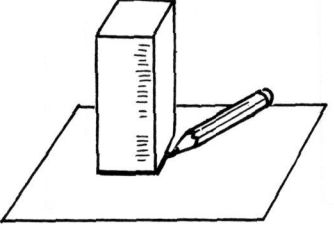

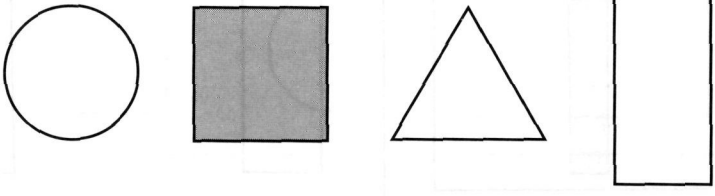

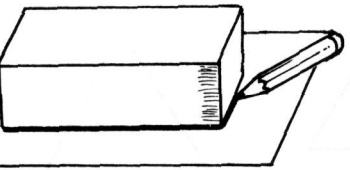

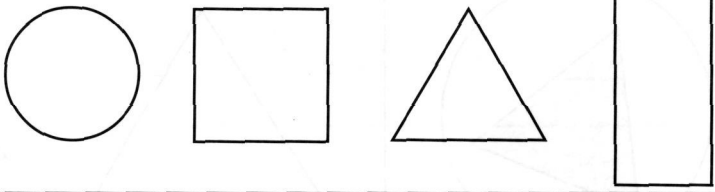

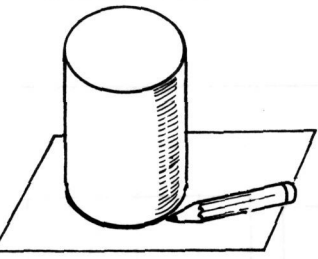

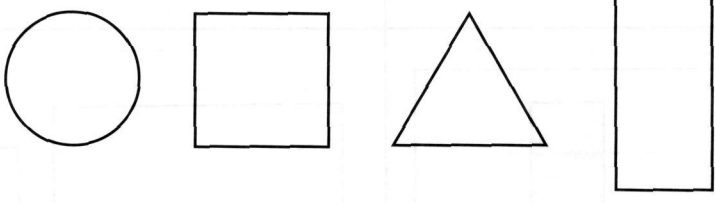

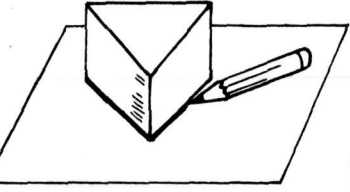

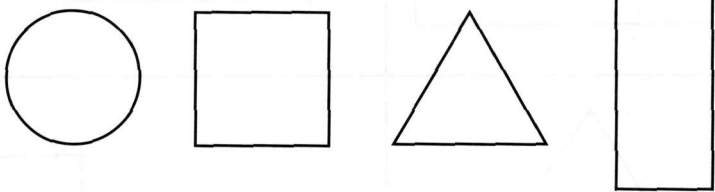

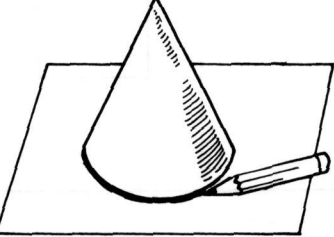

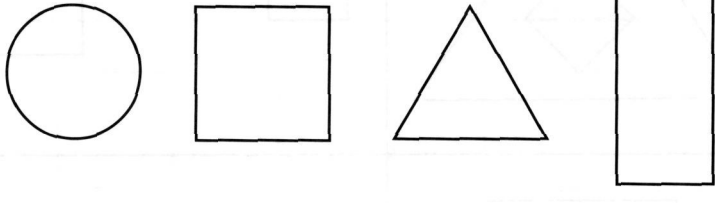

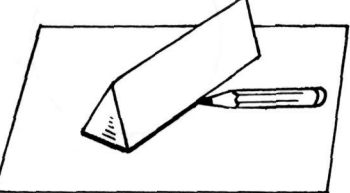

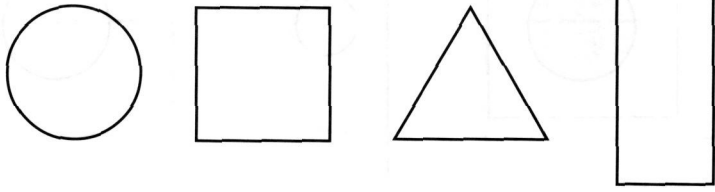

1. Color the shape that matches the object.

2. Color the shape that fits the shaded part.

	
	
	
	
	

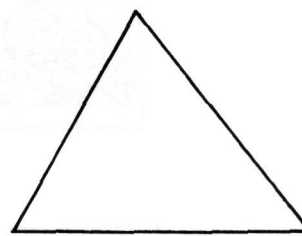

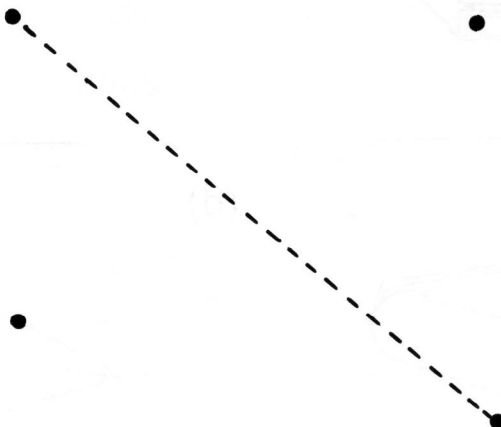

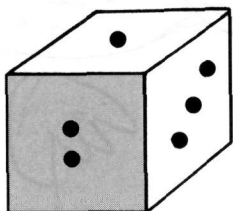

3. Color the shape that you can get by drawing around each solid as shown.

	
	
	
	
	
	

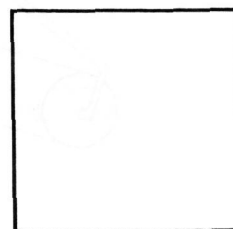

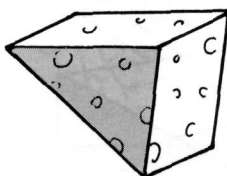

# EXERCISE 51

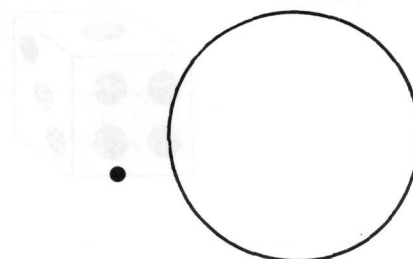

1. Match the shaded face of each object to the correct shape.

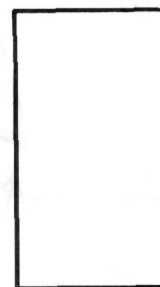

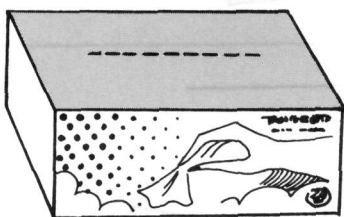

triangle

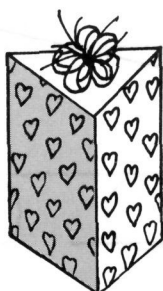

square

circle

rectangle

2. Name the shape of the shaded face.

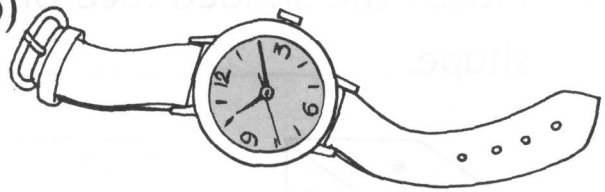

(a)

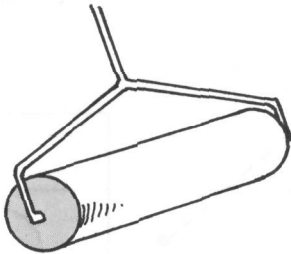

square

---

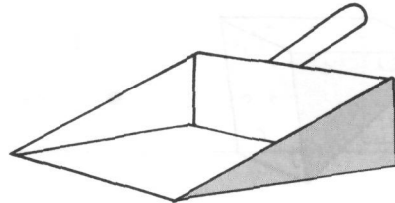

(b)

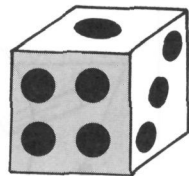

(c)

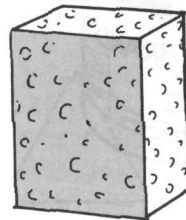

(d)

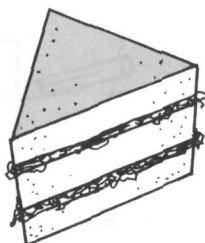

(e)

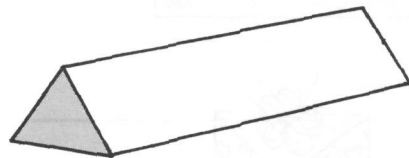

(f)

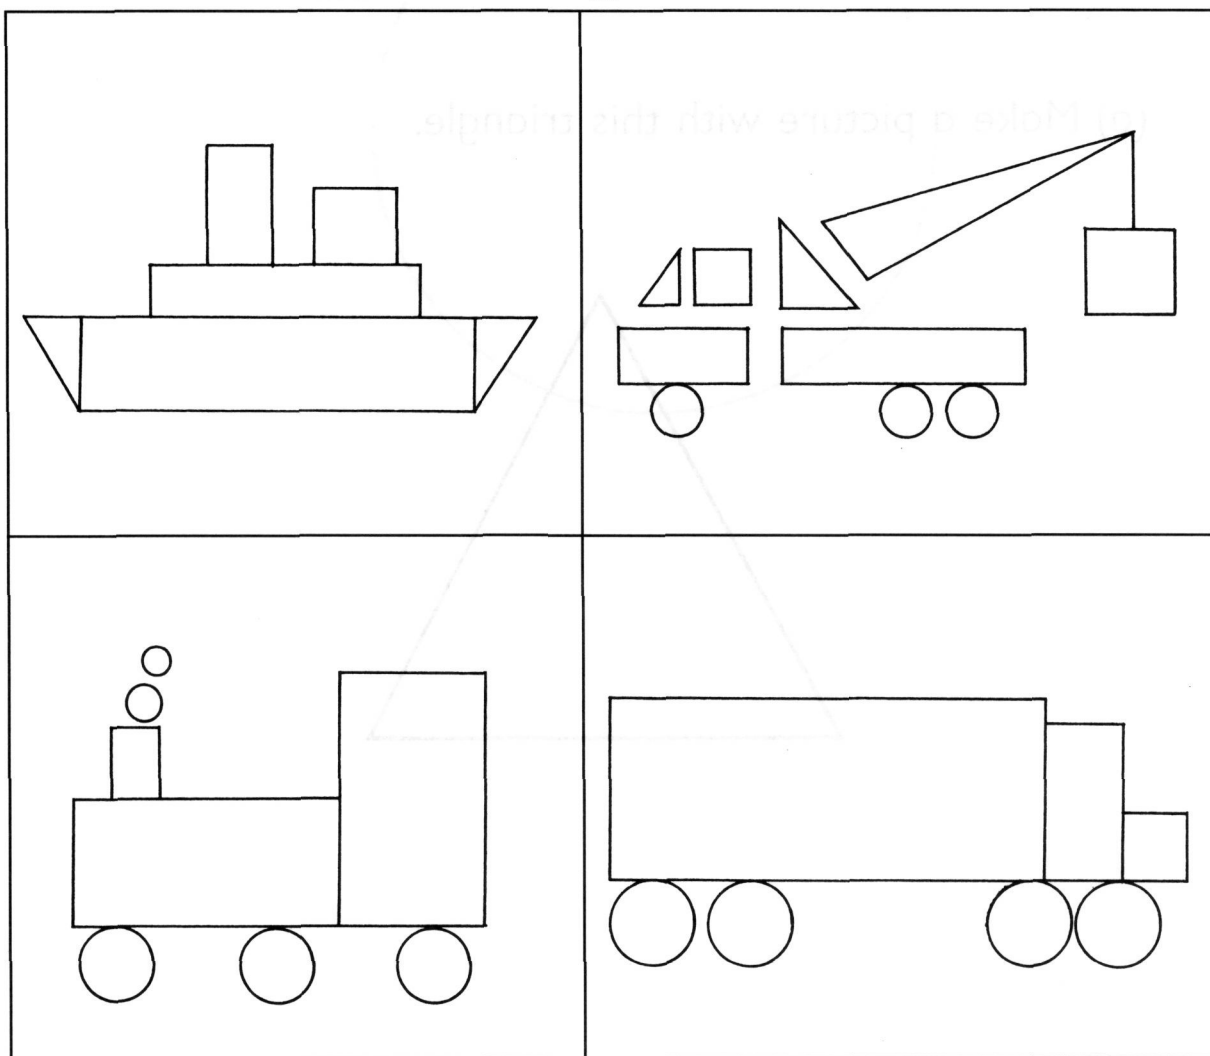

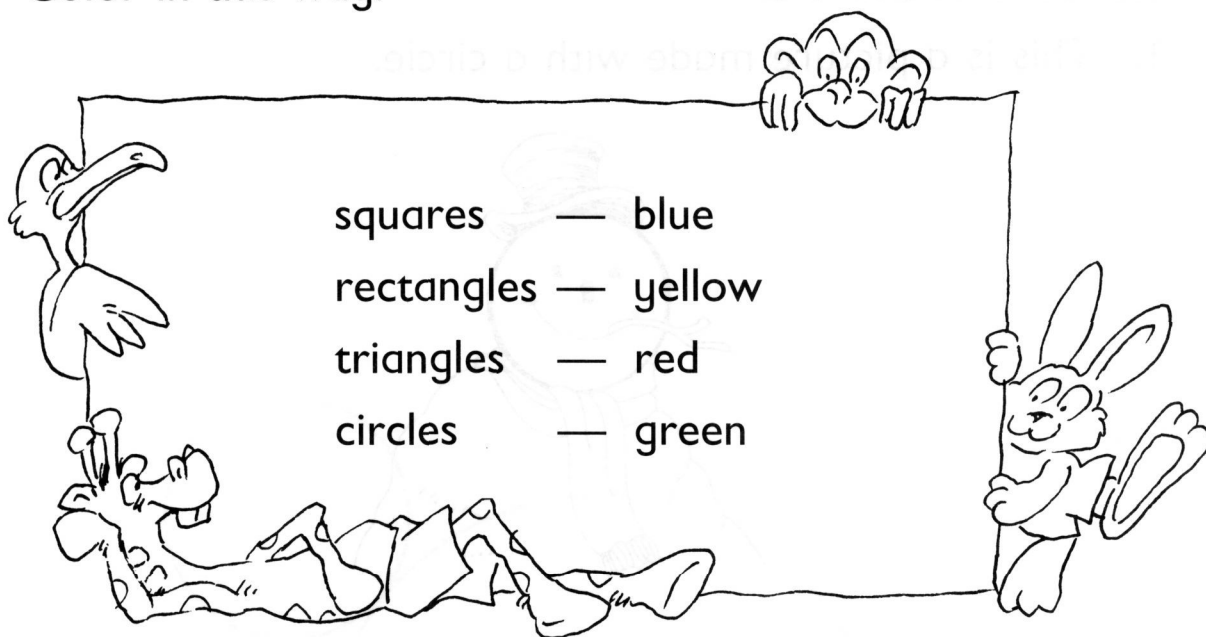

(g)

(h)

3. Color in this way:

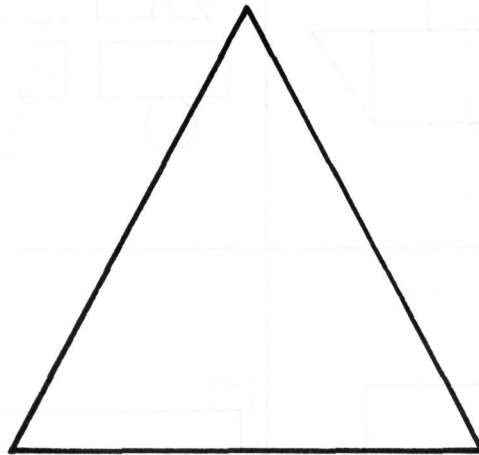

## EXERCISE 52

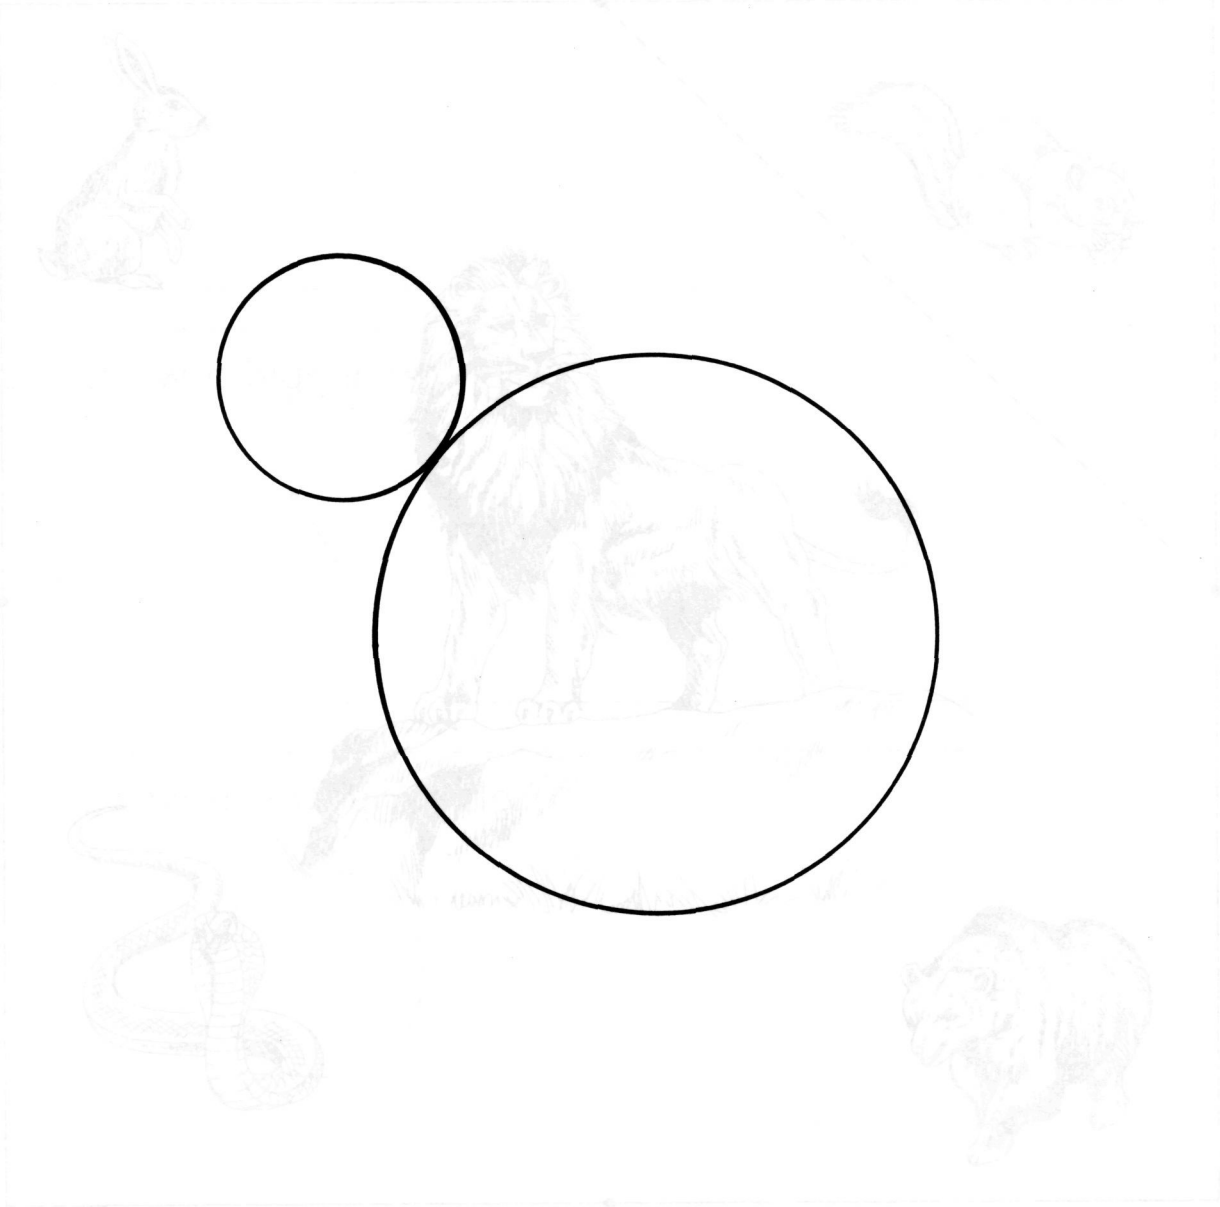

1. This is a picture made with a circle.

(a) Make a picture with this triangle.

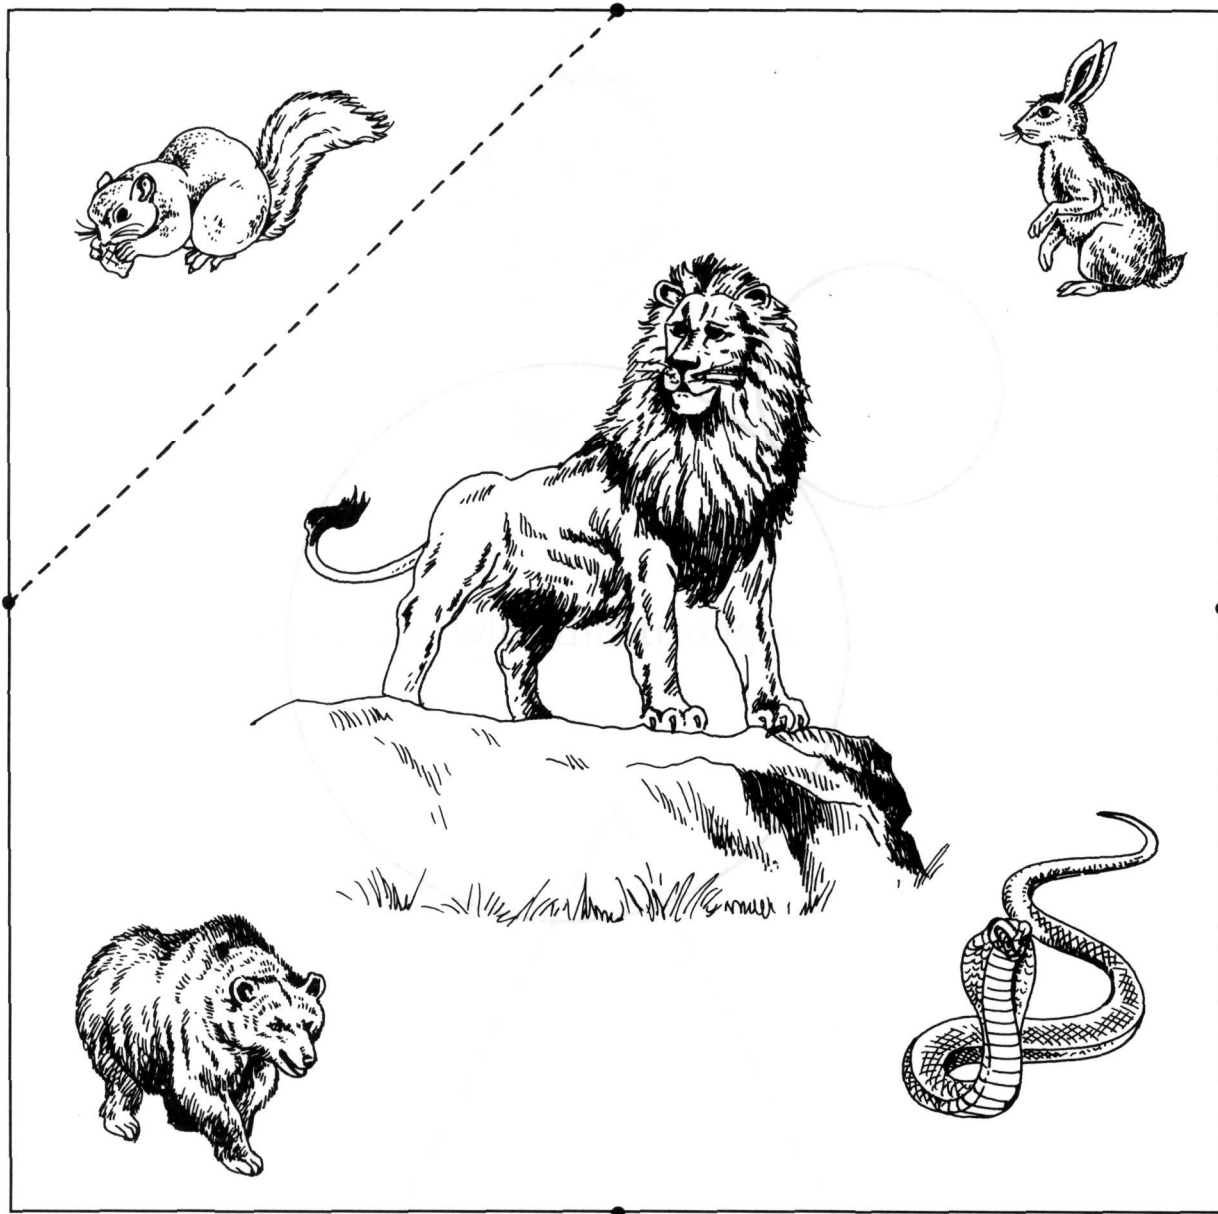

(b) Make a picture with these circles.

2. Draw a square by joining the dots. You will separate the 5 animals.

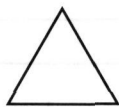

## EXERCISE 53

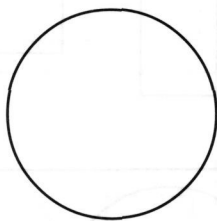

1. Draw a smaller rectangle.

2. Draw a bigger triangle.

3. Draw a smaller circle.

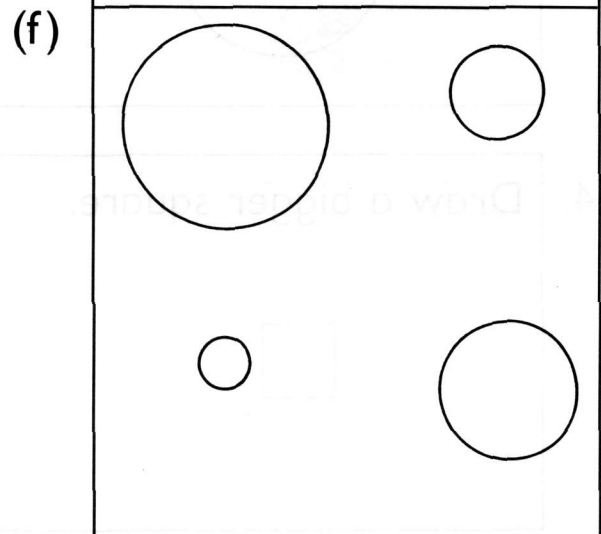

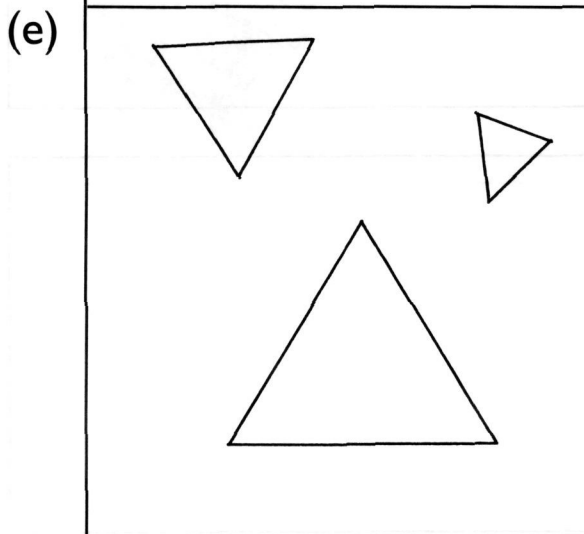

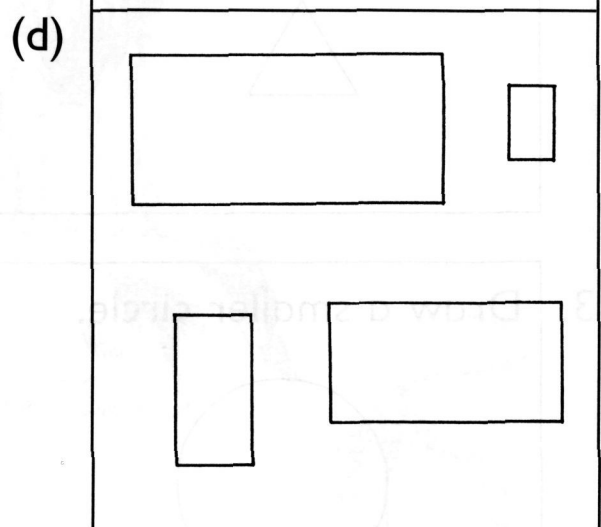

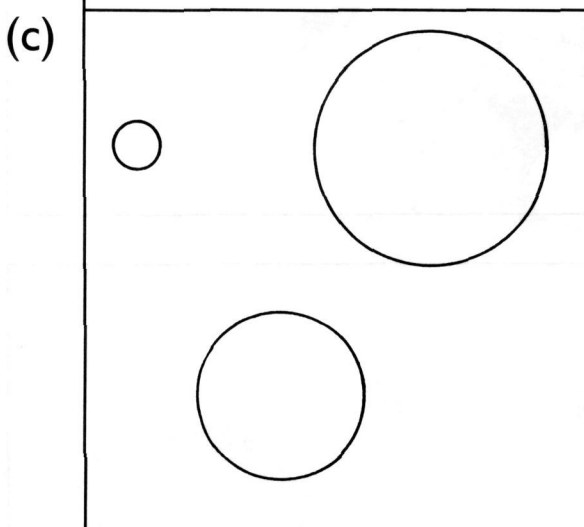

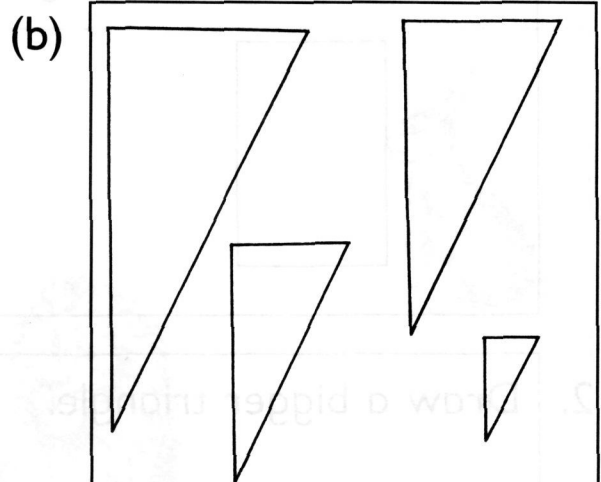

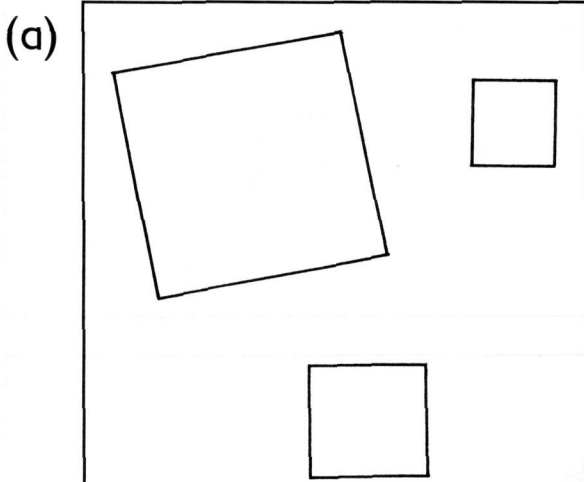

4. Draw a bigger square.

5. Color the smallest shape red.

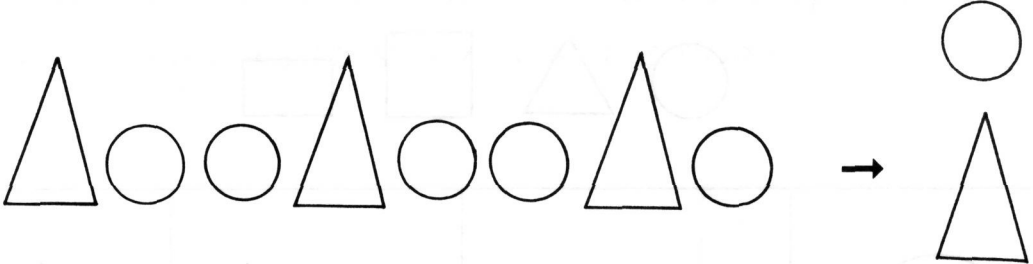

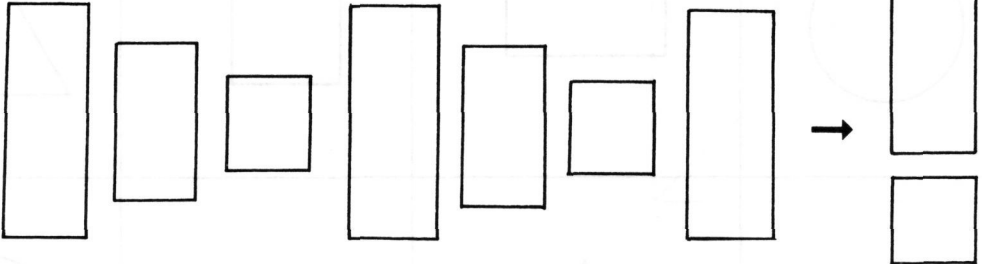

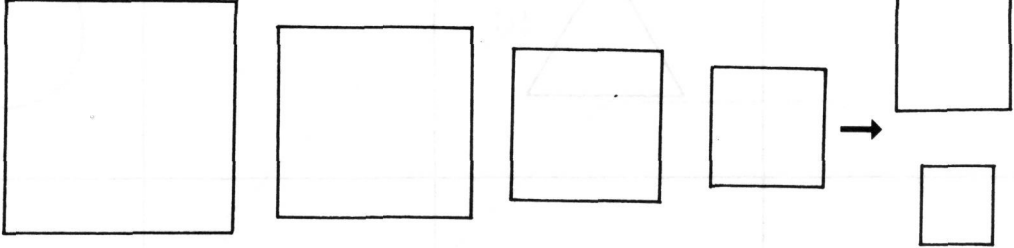

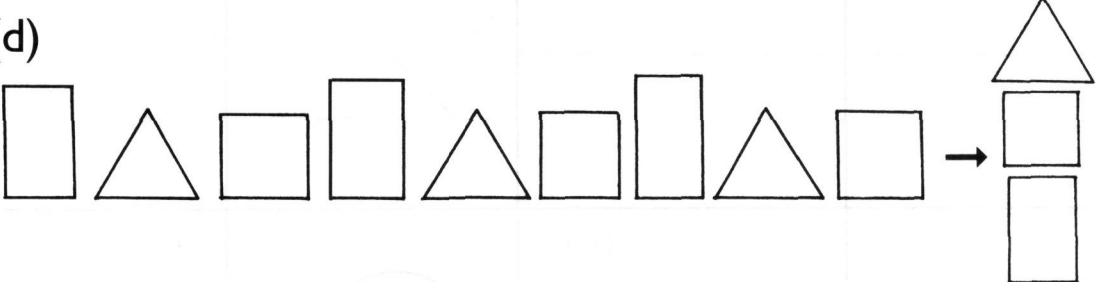

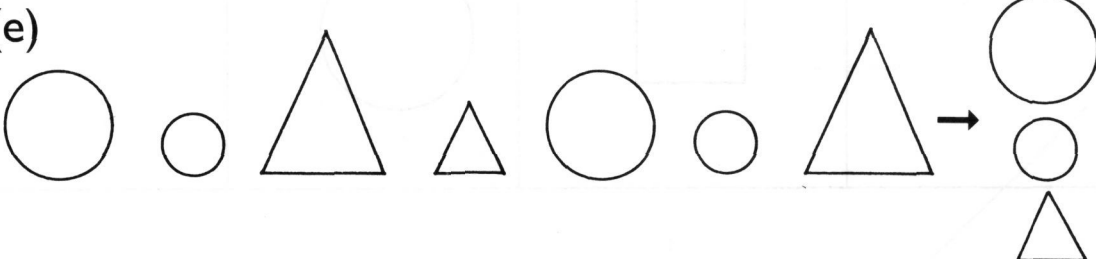

Color the biggest shape blue.

# EXERCISE 54

1. Study each pattern.

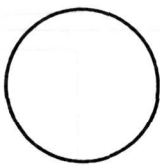

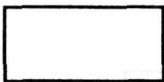

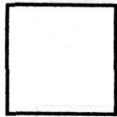

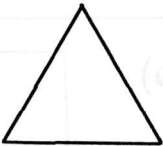

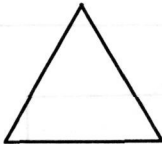

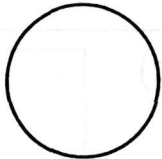

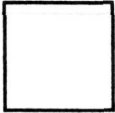

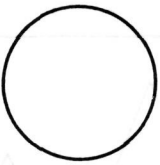

Then color the shape that comes next.

<p>(a)</p> 
<p>(b)</p> 
<p>(c)</p> 
<p>(d)</p> 
<p>(e)</p> 

2. Draw and complete the pattern below.

Each row ( $\longleftrightarrow$ ) or column ( $\updownarrow$ ) must have all these 4 shapes:

			
			
			

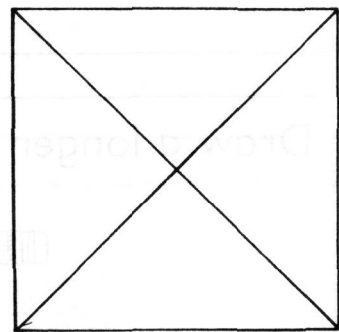

## EXERCISE 55

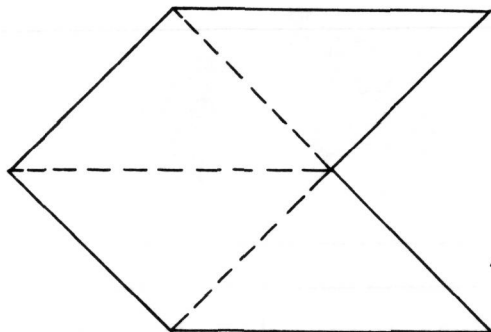

1. Trace this square on a piece of paper and cut it into 4 triangles.

Use the 4 triangles to form each of the shapes below.

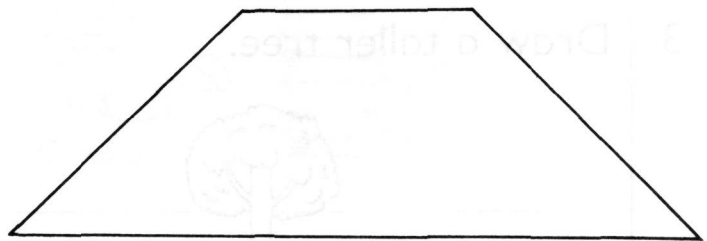

Draw dotted lines to show how it is done.

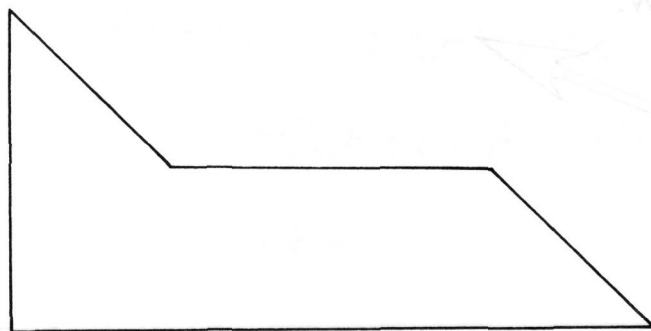

(a)

(b)

(c)

(d)
