

EXERCISE 26

1. Write '+' or '-' in each \bigcirc .

 $3 \bigcirc 1 = 2$	 $2 \bigcirc 2 = 0$
 $3 \bigcirc 2 = 5$	 $5 \bigcirc 1 = 4$
 $4 \bigcirc 3 = 1$	 $1 \bigcirc 3 = 4$

2. Use the numbers and signs in each box to write a number sentence.

3, 10, 7, =, -

10 - 7 = 3

3, 7, 4, =, +

6, 6, 0, =, +

7, 9, 2, =, -

5, 3, 8, =, -

EXERCISE 27

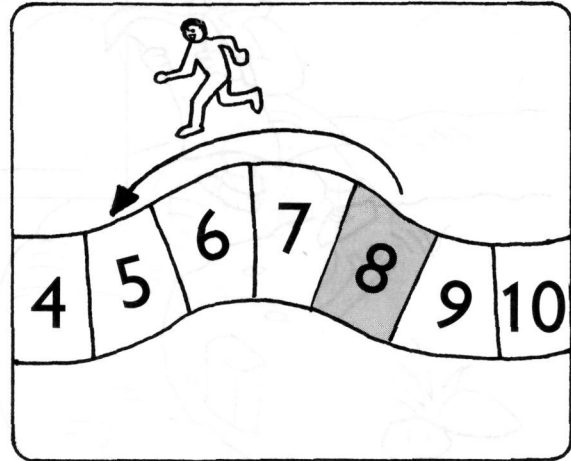

1. Count backwards to subtract.

(a)

$$6 - 2 = \square$$

(b)

$$8 - 3 = \square$$

(c)

$$7 - 1 = \square$$

(d)

$$10 - 3 = \square$$

2. Subtract 1 from each number.

3. Subtract 2 from each number.

4. Subtract 3 from each number.

EXERCISE 28

1. Subtract. Then color in this way:

0 — yellow

1 — red

2 — green

Others — blue

5 - 1 =

3 - 0 =

8 - 8 =

5 - 2 =

8 - 7 =

7 - 2 =

6 - 6 =

10 - 10 =

8 - 1 =

5 - 4 =

6 - 5 =

3 - 3 =

7 - 7 =

9 - 0 =

9 - 8 =

4 - 2 =

2 - 0 =

7 - 2 =

3 - 2 =

9 - 7 =

10 - 1 =

10 - 8 =

10 - 9 =

5 - 3 =

8 - 2 =

7 - 5 =

EXERCISE 29

1. Cross out the ducks that do not belong to the house.

The image shows four houses, each with a thatched roof and a sign on the roof. Inside each house are six ducks, each with a simple arithmetic problem written on its body. The goal is to identify which ducks do not belong to the house based on the number on the roof.

House 5: The sign on the roof is the number 5. The ducks have the following math problems:

- Top row: $6 - 1$, $8 - 1$, $3 + 1$
- Bottom row: $5 - 0$, $4 + 1$, $9 - 4$

House 6: The sign on the roof is the number 6. The ducks have the following math problems:

- Top row: $4 + 0$, $9 - 3$, $8 - 2$
- Bottom row: $10 - 4$, $5 + 2$, $7 - 1$

House 7: The sign on the roof is the number 7. The ducks have the following math problems:

- Top row: $9 - 2$, $3 + 4$, $10 - 7$
- Bottom row: $10 - 3$, $7 + 0$, $2 + 4$

House 8: The sign on the roof is the number 8. The ducks have the following math problems:

- Top row: $4 + 4$, $9 - 1$, $8 - 1$
- Bottom row: $6 + 3$, $5 + 3$, $10 - 2$

EXERCISE 30

1.

How many ducks are there altogether?

$$4 \bigcirc 3 = \square$$

There are ducks altogether.

2.

How many oranges are left?

$$7 \bigcirc 4 = \square$$

oranges are left.

3.

How many children are there altogether?

$$\square - 7 - 3 = \square$$

There are children altogether.

4.

How many eggs are used?

$$\square - 10 - 6 = \square$$

eggs are used.

5.

How many small balls are there?

$$\square - 6 \text{ } \bigcirc \text{ } 3 = \square$$

There are small balls.

6.

How many butterflies are there altogether?

$$\square + 3 \text{ } \bigcirc \text{ } 1 = \square$$

There are butterflies altogether.

EXERCISE 31

1.

There are 4 balls in the bag.

How many balls are there altogether?

$$\boxed{4} \bigcirc \square = \square$$

There are balls altogether.

2.

There are 10 pencils altogether.

How many pencils are there in the box?

$$\square \boxed{10} \bigcirc \square = \square$$

There are pencils in the box.

3.

There are 7 fish altogether.

How many fish are hidden?

$$\boxed{7} \bigcirc \square = \square$$

fish are hidden.

4.

2 chicks are hidden in the bush.

How many chicks are there altogether?

$$\boxed{2} \bigcirc \square = \square$$

There are chicks altogether.

5.

There are 4 cakes in the box.

How many cakes are there altogether?

$$\boxed{4} \bigcirc \square = \square$$

There are cakes altogether.

6.

There are 8 apples altogether.

How many apples are there in the bag?

$$\boxed{8} \bigcirc \square = \square$$

There are apples in the bag.
